

DERWENT

Open Saturday 12 March until Wednesday 30 November 2016.

Directions: Located just off the A68 and four miles west of Castleside, turn south at the Manor House pub and follow the road into the valley.

Throughout the season a number of tagged fish will be stocked, with special prizes awarded to those anglers lucky enough to catch them. In addition, the dam wall is available for coarse anglers who can expect to catch some quality roach.

Derwent is suitable for disabled anglers and visitors.

On site we have an excellent shop stocked with everything you need for a day's fishing such as rods, reels, tackle, accessories, clothing, worms, bait, ice creams and refreshments including hot and cold

drinks. Environment Agency rod licences are also on sale at this fishery. For those not fishing there are several picnicking and play areas, plus spectacular walks along the north and south shores and across the dam. The reservoir and surrounding land is home for a fantastic array of wildlife and you can often see soaring buzzards, red kites and fishing ospreys as well as red squirrels rabbits, stoats and weasels.

A wheelchair accessible trail runs from the south end of the dam along to Pow Hill Country Park and from the north shore of the dam wall to Millshield picnic site.
