PayPal Authorized Payment to Cryptocurrency Exchange LLC Scam

THREAT

A fake PayPal email which claims the recipients have sent payment to Cryptocurrency Exhange LLC, and they have the option of canceling it, is a phishing scam.

The fake email is being sent by cybercriminals to trick PayPal users into clicking on a link within them that goes to a fake or phishing PayPal web page. The fake webpage will then attempt to steal PayPal credentials and credit card information.

ADVICE

- 1. Make it difficult for attackers to reach users.
- 2. Help users identify and report suspected phishing emails.
- 3. Protect your organisation from the effects of undetected phishing emails.
- 4. Respond quickly to incidents

Further information on how to defend your organisation from email phishing attacks can be found at: https://www.ncsc.gov.uk/guidance/phishing
