

Be a photographers' assistant for the day.

Volunteer needed.

In July 2018, Inclusion North will be working with a professional photographer.

We will be taking photographs of the work we do to use on our website, in reports and in publicity.

We have an opportunity for a volunteer to join us to work with the photographer as their assistant.

We want someone with a learning disability or autism who is interested in photography and would learn a lot by working with a professional photographer.

You will have a fun day, doing lots of different things, and learning about the job of being a photographer.

We will also have a nice lunch.

There are two sessions you can apply to volunteer for
