

Hairdressing at Home

Home visits from local hairdressers

We know that it's important to you to be able to take care of your appearance.

If you are finding it more difficult to get out to the barbers or hairdressers, or would simply prefer to have your hair done at home, our Hairdressing at Home service is here for you.

Many older people who use the Hairdressing at Home service maintain their link with the hairdresser or barber to continue to have their hair done at home regularly.

When you contact us we will:

- find out your requirements
- look at any specific needs you may have
- make sure that basic facilities and precautions are in place within your home
- contact one of our hairdressers or barbers to arrange an appointment for you.
